

Succulent Pumpkins

Items Needed

- heirloom pumpkin
- cold glue
- succulents
- forest moss
- floral snips
- adhesive spray

Design Tips

- Begin with taller succulents in the center and work your way out.
- The Rule of 3 (ie Do not place two circular succulents next to each other.)
- Create various heights with your succulents.
- Mix up the colors to enhance them.

Inspect Your Pumpkin

Make sure your pumpkin has no bruises, scratches, or holes. These will cause the pumpkin to deteriorate quickly.

Workshop Tip:

Set Up a Photo Station

Create an area for your students to photograph their pumpkins with a tablecloth, cake stand, and other holiday decor. Remind students to tag you!
